### Reference letter

Eurobeef Ltd. is a leader on the Polish market in the production of beef products.

We are engaged in cutting beef quarters and producing beef meat and products of the highest quality. We are one of the largest beef producers in the region.

We have been operating on the producers market since 2012. The founders and shareholders come from beef trading and manufacturing business. Thanks to that – the knowledge and market experience were combined.

Our goal is to satisfy demand of our customers – that is why we use advanced production solutions, packaging and storage technologies.

In our production plant, we use the D-SAN system to disinfect the production rooms. The control of the system is simple and intuitive, and its effectiveness in eliminating pathogens is very effective

We recommend D-SAN Solutions Ltd. (subsidiary company of ALVAR Ltd.) for cooperation.
