Reference letter

Meat Plants “Zakrzewscy” is a family business founded in 1994, which today belongs to the best Polish producers of red meat. The company has a modern production plant, equipped with the most advanced machine technologies. The company is distinguished by the highest quality of products. Our plant meets strict environmental protection requirements, incl. in terms of reducing the consumption of water and electricity and heat. The technological solutions implemented by us allow us to reduce production costs, and offer attractive terms of cooperation.

One of the companies we cooperate with in the area of cost optimization of disinfection processes is D-SAN Solutions Ltd. (ALVAR group). The disinfection systems offered by it ensure not only a high level of microbiological safety, but also allow to reduce the consumption of water and disinfectants and to replace employees in this very important area.

We recommend D-SAN Solutions for cooperation, as experts in disinfection processes.
